## 30 Day Public Notice Report

---

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director  
Division of Water  
Room W264  
402 West Washington Street  
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water  
Room W264  
402 West Washington Street  
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Application # : FW-25787

Stream : Big Raccoon Creek

Applicant : Putnam County Commissioners  
Jim Smith  
1624 West County Road 225 South  
Greencastle, IN 46135-7587

Description : The existing alignments of County Road 1050 North and County Road 600 West will be realigned to construct a new bridge adjacent to the existing Steel Thru-Truss bridge. The new bridge will be built to provide a structural capacity, clear roadway width and safety features that meet current design standards. The existing bridge has a load limit of 6 tons and a 15'-6" clear roadway width which is impractical for this area which is occupied primarily by farmland. The new structure will be a 3-span continuous composite steel beam bridge with span lengths of 66'-0", 86'-0" and 66'-0". The structure will have a 28'-0 clear roadway width and a 219'-6 ¼" out-to-out bridge slab. The new bridge will provide 2438 square feet below the Q100 high water elevation compared to the existing bridge which provides 2168 square feet. The proposed spillslopes will be constructed in locations where they are located behind the existing abutments to provide minimal impacts to the flow of the channel. The spill slopes will be armored with class 1 riprap on geotextile fabric. During a 100 year storm, water flows over County Road 600 West (which runs parallel to the creek) and flows around the existing bridge. The grade of the parallel road will be raised in the vicinity of the bridge, but the low areas of the existing road will be maintained. The abutments and piers will be constructed parallel to the creek which is skewed 10 degrees to the proposed alignment of County Road 1050 North. Approach work will extend approximately 1600' east of the bridge, 300' south of the bridge and 500' north of the bridge. The project is federally funded. Details of the project are contained in information received electronically at the Division of Water on May 20, 2010 and in plans and information received at the Division of Water on
