

STARKE COUNTY ORDINANCE 2010-_____ BURNING REGULATIONS

THE BOARD OF COMMISSIONERS OF STARKE COUNTY (the “Commissioners”) have determined that open burning of materials in the unincorporated areas of Starke County is detrimental to the public health, safety and welfare of the community, because open burning contributes to air pollution including production of smoke, noxious odors and toxic fumes and other atmospheric contaminants, and significantly increases the risk and frequency of wild fires.

The Commissioners have reviewed the existing county ordinances regulating burning in the unincorporated areas of the county and, after public hearings, have determined that the ordinances should be reformed to (a) ensure Starke County’s ordinances regulating burning comply with all Indiana laws and regulations, and (b) provide a clear framework for enforcement.

NOW, THEREFORE, BE IT ORDAINED that the Starke County Code be amended to add Ordinance 2010-_____, **Burning Regulations** superseding, replacing and repealing all prior ordinances inconsistent with the terms hereof. The ordinance is as follows:

Section I. Adoption by Reference of Indiana State Laws, Rules and Regulations

It is the intent and policy of Starke County that the minimum state standards for regulation of burning shall apply throughout the county, and such standards shall be applicable as if fully set forth herein.
